COX BECOMES THE CHIEF EXECUTIVE OF THE STATE OF OHIO

TAKES THE OATH OF OFFICE TODAY

James M. Cox Duly Inaugurated
Governor of Ohio.

GALA OCCASION AT COLUMBUS

Hundreds Witness the Impressive
Ceremonies in the Statehouse Ro-
tunda and Hear the Inaugural Ad-
dress—Parade of Military and Civic
Societies the Spectacular Feature
of the Day—Inaugural Ball Tonight.

Columbus, O., Jan. 13.—A few min-
utes before the noon hour today, the
booming of 17 guns and the chimes
of Trinity church announced the in-
auguration of James M. Cox as gov-
ernor of Ohio. The ceremony took
place in the rotunda of the state-
house, the oath of office being admin-
istered by Chief Justice Shauck of
the Ohio supreme court. Judge John
H. Sater presided over the inaugural
ceremonies. Governor Cox's inaugural
address followed the ceremony.

The following was the program in
the rotunda: Music, Fourth Regiment
band; introduction of master of cer-
emonies by O. A. Miller, chairman of
the inaugural reception committee;
invocation, Rev. Dr. William A. Hale,
Dayton; the soldiers' chorus from
"Faust," Columbus Democratic Glee
club and Fourth Regiment band; re-
marks, John E. Sater, United States
district judge; master of ceremonies
introduces Ohio's senior supreme
Judge John A. Shauck; administering
oath of office, Judge Shauck; "Wel-
come to Governor Cox," Columbus
Democratic Glee club and Fourth
Regiment band; presentation of gov-
ernor's commission, Governor Judson
Harmon; inaugural address, James
M. Cox; "Hail to the Chief," Fourth
Regiment band; benediction, Rev. Dr.
Washington Gladden.

Impressive Scenes.

Never has there been a similar cer-
emony attended by more impressive
surroundings. The rotunda of the
state capitol was jammed with eager
witnesses of the induction into office
of the new governor. The immense
dome was ablaze with flags and decora-
tions, and the enthusiasm of the
crowd was such that the police detail
was kept busy preventing everyone
from occupying the most coveted lo-
cation at the same time. Many poli-
ticians prominent in state and city af-
fairs and other widely known citizens
were identified with the inaugural
program.

Mrs. Eliza A. Cox, the aged mother
of the governor, witnessed his induc-
tion into office. She appeared to be
deeply impressed.

Governor Cox was conducted from
his residence to the statehouse by
Chief Marshal Speaks and Troop B of
the Ohio National Guard. Earlier in
the day receptions were tendered the
visiting political clubs by the Frank-
lin County Democratic club; to the
visiting Elks by the local Elks, and
to the out-of-town Eagles by the Co-
lumbus A. E. The political clubs and
the public were received by the gov-
ernor in the statehouse lobby at 3
p. m.

Inaugural Parade.

A huge parade, one of the most im-
pressive ever seen in Columbus,
formed at 1 p. m. in the northern part
of the city, and moved slowly south-
ward through the principal streets.
The new governor and other officials
reviewed the parade from a grand-
stand erected in East Broad street.
Many special trains brought march-
ing clubs and big crowds from all
over the state, many members of

HASTINGS AT THE HELM

Boys' Industrial School To Be En-
tirely Reorganized.

Columbus, O., Jan. 13.—The Boys'
Industrial school, near Lancaster,
with Captain R. U. Hastings as su-
perintendent, is to be entirely reorgani-
zed at once. Captain Hastings, for
12 years connected with the reform-
atory at Mansfield, accepted the su-
perintendency of the Boys' Industrial
school, and will take charge of the
institution Jan. 16.

The appointment of Captain Has-
tings was made sooner than expected,
because of the many escapes at
the school. When Major Gerlach was
asked for his resignation on Dec. 31
it was expected that he would be per-
mitted to remain in charge until Feb.
1, but the trouble at the school has
become so aggravated that Major Ger-
lach asked that he be relieved from
further responsibility immediately.

Creamer Will Not Accept

Columbus, O., Jan. 13.—State Treas-
urer D. S. Creamer has declined not
to accept the tender of appointment
as cashier of the treasury, made to
him by John P. Brennan, the present
cashier. Mr. Creamer intends to take
a much-needed rest before taking up
any new line of work.

AILMENT PREVENTS FREEDOM OF SPEECH

William Rockefeller Examined
By Government Physician.

Miami, Fla., Jan. 13.—Trembling as
if with palsy and apparently very
weak, William Rockefeller, wanted as
a witness before the Pujo money trust
investigating committee, landed here
from Nassau. Mr. Rockefeller, his
wife and son, William, Jr., were the
first passengers to leave the boat.
They were met by Dr. Chappell, Mr.
Rockefeller's physician, and Percy
Rockefeller. The party was driven
to the Royal Palm hotel, where a
short time after the millionaire was
examined by Dr. C. W. Richardson, an
expert on throat diseases, on behalf
of the government, in the presence of
Dr. Chappell and Mr. Rockefeller's
two sons.

It is said that Mr. Rockefeller is
partly paralyzed in the jaw, prevent-
ing free speech. The Rockefellers
left for New York today.

Speaker Swain's Father Dies.

West Union, O., Jan. 13.—Samuel L.
Swain, 82, father of Speaker Charles
L. Swain of the Ohio house of repre-
sentatives, died at his home here. Un-
til his retirement from business sev-
eral years ago he operated one of the
largest flour mills in Adams county.
When the upheaval occurred in this
county two years ago, following ex-
posures of election frauds, he was a
member of the grand jury that inves-
tigated the cases.

GEORGE SIPP CLAIMS HE'S A MARKED MAN

Police "System" Will Get Him
Sooner or Later, He Says.

Philadelphia, Jan. 13.—George A.
Sipp, the former hotelkeeper of New
York, against whom the New York
police "system" has such a grudge
that the system wanted him mur-
dered, according to Sipp, left the
Hotel Walton, where he has been reg-
istered for several days.

Just prior to leaving the hotel Sipp
was called to the phone, and over it
a voice, after being assured that it
was the former hotelkeeper at the
phone, said: "You better do all the
talking you want to do now. When
we get through with our plans, you
won't want to do any more talking."

Sipp was here with his son How-
ard, Assistant District Attorney
Groehl of New York and two detec-
tives who have acted as his body-
guard since he was released from jail
in Atlantic City, where he had been
thrown into jail on an alleged frame-
up charging him with felony.

"I don't want to leave here," Sipp
told Mr. Groehl. "If the New York
system is going to get me it will get
me sooner or later."

Notwithstanding this, Groehl insist-
ed that the party leave. He refused
to tell the next stopping place.

KILLED BY OLDER BROTHER

Body of Lad Who Refused to Run
Errand Found Under Rock Pile.

Middletown, Conn., Jan. 13.—Mur-
dered by his older brother because he
refused to go down the street with
him on an errand, the body of Ed-
ward Sorgron, 14, was found buried
beneath a pile of rocks about 200
yards from his home, in the village
of Portland. The boy had first been
strangled and then his body riddled
with bullets. He has been missing
since last Wednesday. The older
brother, who is suspected of the
crime, left town the morning after his
brother disappeared and no trace of
him has as yet been found.

Liability Receipts Swelling

COLUMBUS, O., Jan. 13.—The re-
ceipts of the state liability board of
awards have exceeded the largest
estimates made by the friends of the
new law. Within 10 months' time
over \$190,000 has been paid into the
department. The applicants have
been coming in so fast during the past
few weeks that extra clerks have been
put to work getting the policies is-
sued and in keeping up the correspon-
dence of the department.

General Castro on Ellis Island;
He's Just as Tall as Napoleon

Copyright, 1913, by American Press Association.

GENERAL CIRIANO CASTRO, former dictator of Venezuela, is said to
be exactly the same height as Napoleon. Perhaps that somewhat jus-
tified him when he drew a comparison between the Little Corporal
and himself in that he had nothing left but honor after Gomez, his
successor, got through with him. As he said it he drew himself up, stuck out
his chest and gazed into space, just as you see him on the left. With him
was his interpreter in un-Napoleonic pose. Castro was on Ellis island, New
York harbor, at the time, seeking to gain entrance into the United States.

CAST VOTES FOR WILSON

Ohio Electoral College Meets and
Acts at Columbus Today.

Columbus, O., Jan. 13.—Ohio's
electoral college met in the governor's
office and elected Alfred M. Cohen,
Cincinnati, president; John W. Devan-
ney, secretary, and Walter K. Noe,
sergeant-at-arms. Today the college
met again and cast its 24 votes for
Woodrow Wilson for president of the
United States. Three committees of
eight members each were appointed
on mileage and per diem, rules and
order of business and permanent or-
ganization, respectively.

New York, Jan. 13.—Preparations
have been started by the New York
Clothing Trades association and the
three other organizations of employ-
ers in the men's and boys' clothing
industry to fight for the open shop.
They will fight the demands of the
union and start up work in all their
shops and factories which have been
tied up by the garment workers' strike.

Eugene S. Benjamin, president of
the New York Clothing Trades as-
sociation, said at a meeting to be held
this evening the question of the vio-
lence and intimidation practiced
since the strike began would be con-
sidered.

Samuel Gompers, president, and
Frank Morrison, secretary of the
American Federation of Labor, who
were in the city, had a conference at
the Victoria hotel with President
Rickert and other officers of the
United Garment Workers of America.
Mr. Gompers said that he and the
other officers of the federation will do
everything in their power to bring
about an honorable settlement that
will be advantageous to the strikers.

LAD HOPS A TRAIN LEFT LEG CRUSHED

Fourteen-year-old Jesse Turnipseed Suffers Horrible Injuries Under B. & O. Freight Sunday Afternoon and Left Leg Is Amputated Above the Knee---Will Recover.

With his left leg crushed to a pulp from the knee down, 14-year-old Jesse Turnipseed, son of Elijah Turnipseed, was picked up from under a B. & O. freight train upon which he had been stealing a ride, Sunday afternoon about two o'clock.

The accident occurred on the B. & O. about 100 yards east of the Fayette Grain elevator, and while the lad was endeavoring to save a few steps while on his way to a playhouse which had been erected by some boys in the "jungle" near the elevator.

As soon as the lad fell he uttered a shriek which caused the engineer to stop his engine, but not soon enough to prevent the trucks of one car passing over the lad's leg.

He was picked up in a semi-conscious condition and assistance arriving, he was placed upon a car door and carried to the Hodson hospital, leaving a trail of blood along the way.

At the Hodson hospital he was placed under the influence of an anesthetic and B. & O. physician, G. W. Blakeley, assisted by Dr. Hodson and Dr. P. E. Decatur, amputated the leg above the knee. The limb had been crushed so badly that it bore little semblance to a human leg.

After the limb was dressed, the lad rallied and is doing nicely, with every assurance that he will recover within a few weeks.

The house in which a number of boys have been in the habit of congregating was torn out by Chief McCoy Sunday evening, and the boys will not be permitted to gather at the place again.

Proposed Site Under Water

During the high waters of Sunday the creek east of this city flooded the bottoms to such an extent that some eight or ten acres of the ground owned by the Union township trustee have been considering for cemetery purposes, and that part of the bottoms already owned for cemetery purposes, was flooded.

In some places the water was of a depth sufficient to swim a horse, and the flood was so great that the water stood well up on the hitchhacks in the bottom land near the road.

The flood was one of the greatest in this part of the country in many years.

No Unknown Depositors Here

In every county where there are bank deposits which have been in the bank a number of years and have not been claimed by the person who made the deposit, a report of such deposits is to be filed with the Probate Judge between the 1st and 2nd Mondays of each January, and after eight years from the time the first notice is served, if the deposits have not been claimed, the amount is paid into the county treasury.

In this county no such reports have been filed, which is taken as evidence that there are no unknown deposits in the banks of the county. Section 9864 of the General Code, covers the matter, and provides a penalty of \$500 upon failure to follow the instructions of the section.

In counties where persons have made deposits in the banks and have died without heirs or without making a will, or have not been heard from for seven years, the reports are made annually, and the money will eventually go into the county treasury.

INTERESTING RITES CHILD IS CHRISTENED

Full Ceremonies of the Greek Church Carried Out When the Young Son of Peter Brown and Wife Is Christened.

A very interesting ceremony was held at the residence of Peter Brown, proprietor of the Cozy Corner, recently, when the one-year-old son of Mr. and Mrs. Brown was christened. Rev. Father Va Fida Kis of the Greek church of Cincinnati, and John Peters, of Lorain, Ohio, performing the rites. Mr. Peters was the child's godfather, and christened it George. The rites opened with the removal of the child's clothing, after which it was anointed with olive oil, the godfather performing that part of the ceremonies.

After the child had been anointed, it was immersed three times in a tub of water, the priest repeating three times: "You are baptized in the name of the Father, and of the Son and of the Holy Ghost". The child was then placed in the hands of its godfather, and the priest touched it on the back and chest with "Holy Myth", forming a cross.

After this the godfather took the child and he and the priest walked around the tub three times while certain words of the ceremonies were repeated. The god father then placed his hand upon the child's head and the priest asked what name he gave it, and the godfather replied "George". After the name had been given the child (it is customary to name the first-born after the name of the grandfather or grandmother) it was carried into another room and placed in the hands of its mother, who had not been permitted to witness the rites above described.

Following this the godfather distributed pieces of money to all who were present and the rites came to an end.

The parents never name their child, and it is regarded as irreligious to do so. It is the Godfather who furnishes the name.

Mr. and Mrs. Alex. Peters of Columbus, attended the christening.

\$10,000 in Gems Stolen.

Chicago, Ill.—A sample case containing diamonds valued at \$10,000, belonging to W. C. Barry of Newark, N. J., was stolen from the lobby of a hotel here. A man was seen to stroll leisurely from the hotel with the case, but it was believed he was the owner, and no one interfered with him.

Fast Game Is Expected

When Jamestown's lively bunch of basketball players meets the Y. M. C. A. team on the local gym. floor tomorrow night, one of the fastest games of the season is expected to take place.

The Jamestown team has been playing some unusually fast ball, and have won nearly every game. However, the representative team of the Y. M. C. A. has also been playing some fast ball, and tomorrow night's game is expected to be a lively one from the toss-up until time is called in the finish.

Bank Must Pay For Bad Check

George E. Strausbaugh, of Chillicothe, has won a suit against the Savings Bank of that city, wherein he asked for \$37.50 which he alleged was due him from the bank as the result of payment of a forged check for the above amount.

The check, made to Sherman Nickols, called for \$37.50, and was apparently all right, but when it was paid by the bank and the check turned over to Strausbaugh he pronounced it a forgery and asked that the bank make good the amount, and upon the bank's refusal to do so, suit was brought.

Rural Carrier's Many Miles.

Henry Crowwell, for more than six years a rural mail carrier of this city, has just replaced his old mail wagon with a new one. The old wagon probably holds the record in Kansas for service.

Mr. Crowwell makes thirty miles a day and has made 300 trips each year, giving the old vehicle a record of more than 60,000 miles in the six years and ten months it was in service, a distance more than twice around the globe. The wheels and tires on the wagon when it was thrown away were the same as purchased with the wagon when it was new.—Topeka Capital.

Science Half a Century Back.

Dr. Raspail's Sanitary Annual was first issued in France in 1845, with 500,000 copies sold the first year. Raspail, among many revolutionary scientific statements, stated that "infinitely small forms of parasitic life were the undoubted cause of nine-tenths of our diseases." One may well wonder how such widely read utterances may have had to do with awakening Pasteur's beliefs and labors, showing the value of scientific matters.

BANKS AT NIGHT.

Certain Banks in New York Have Working Forces Continuously.

Four big banks in the Wall street district resemble the great gold mines of the west in one striking feature. They have three eight-hour shifts of tollers, and the work never stops. One set takes up the routine where the other leaves off. All night long, Sundays and holidays, a staff of men in each of these banks is busy opening thousands of letters, sorting and listing innumerable checks and drafts that represent fabulous sums of money, and getting them ready for the day force, which is the only one the public comes in contact with or ever hears about. If this work was not carried on incessantly, the banks would soon be overwhelmed with a mountainous accumulation of detail.

Two shifts—the "scouting force," as they call themselves—work between 5 in the afternoon and 9 the next morning. Each bank has a big drawer in the general postoffice. Messengers clear this of its letters every hour all night long. Three thousand letters a day is the average mail of one of these large banks. Two-thirds of it comes in during the night. These letters, in the case of one of the biggest of these banks, contain from 35,000 to 40,000 checks and drafts. At times these inclosures represent as much as \$20,000,000. Rarely does the total fall below \$20,000,000.

The letters are opened as fast as they are received, the checks are counted, and the totals verified with the footings of the lists. The letters are then stamped, which shows that they have been "proved in," as the banks call it. After that they are turned over to the clerks who send out the formal acknowledgments of the remittances they contain. The various checks are assorted to the numbers of the books in which they are to be entered and otherwise; the sight drafts are grouped according to the routes of the bank's messengers, and all is made ready for turning the night's accumulation over to the day force, so it may be handled by it as expeditiously as possible.

Each of these shifts of night workers at the banks consists of from twelve to twenty men. Some banks get along with but one extra set of clerks at night. These come on duty at midnight and leave at 8 a. m. This plan of working all night long in order to keep up with the tremendous amount of business that comes in by mail was inaugurated about five years ago. The first bank that tried it found that so much valuable daytime was saved that one institution after another took it up, until now there are four that have these three eight-hour shifts of clerks, and several more who work only a part of the night.—Harper's Weekly.

Richest Man in the World.

Czar Nicholas, of Russia, is the richest man in the world. He made a contribution of \$100,000,000 from his private purse to the Russian War fund. Outside of the Czar, other monarchs are not wealthy, when compared to Rockefeller. The latter could put all the sovereigns of Europe, except the Czar, on his pay roll at their present wages and scarcely miss the money. The Russian Emperor is in a different class from the other European monarchs.

In the imperial budget the allowance for his household is figured at \$9,000,000 per year, but that is merely the beginning of his resources. He owns a great part of Russia as his private property, and this includes mines, forests and vast stretches of land. In Siberia the most of the rich mines of gold, platinum and precious stones are worked for the benefit of the Czar and his family.

NEW YORK IS A BIT SENSITIVE.

The scales for weighing diamonds are so delicate that an eyelash will turn the balances, but that is nothing to the scales of American prices, which are so delicate that the yell of a crop-killer who has discovered a chinch bug down in Texas will swing the balances in Chicago.

Partition Suit In Common Pleas

Inex E. Mains has instituted action in the Common Pleas court in which Lucille T. Mains and Russell Mains are made defendant.

The suit is for the partition of some 81 1-2 acres of land in Fayette and Highland counties, which belonged to the late Louie J. Mains, who died March 6, 1905, leaving those involved in the suit the only heirs.

The plaintiff asks that the land be either sold or divided, so that her portion may be set off. John P. Phillips, of Chillicothe, is attorney for the plaintiff.

Hon. and Mrs. Chas. A. Reid are in Columbus to attend the inauguration and ball, Mr. Reid remaining for the week's legislative session.

Mrs. Pearce Ballard and little daughter, Betty Rusk, returned Sunday evening from Zanesville, where they visited Mrs. Ballard's parents, Mr. and Mrs. A. P. Rusk, during the holidays.

Miss Nell Taylor is expected from Greenfield Tuesday to visit her aunt, Mrs. Mary L. Arehart and family before leaving for her future home in Texas, for which state her family leave Tuesday.

Mrs. Chas. Link arrived from Bloomville Sunday night for a month's visit with her parents, Mr. and Mrs. John Cullen. Her little daughter has been visiting at the home of her grandparents for a week.

Mr. L. L. Bowman, the recent purchaser of the Van Tuyl Ten Cent store and wife have gone to house-keeping in the residence property vacated by Mr. C. F. Ballard and family on W. Market street.

Miss Helen Fitzgerald and Miss Fannie Persinger left Monday night for Southern California and after tourist's visits to places of interest enroute, expect to spend the remainder of the winter at Riverside and Los Angeles.

Mrs. Hugh H. Hudson and little daughter, of Gordonsville, Va., returned Monday from a visit with Mrs. Clarence Frazer in Xenia and will spend another week or two with her sister, Mrs. Wert Shoop before returning South.

Miss Jean Palmer left Monday morning for Cincinnati, where she joins her grandfather, Mr. Charles Palmer, of Indianapolis, and accompanies him to Shreveport, La., for a visit of some weeks with her uncle, Mr. Will Palmer and family.

Mr. Harley Kilgore returned Saturday from Asheville, N. Ca., where he returned with his brother-in-law, Mr. Will A. Rodgers a week ago, for a visit with his sister. Mr. Kilgore found Mrs. Rodgers in greatly improved health with prospects for complete recovery in the near future. He reports that flood conditions have not been exaggerated by the newspapers and passed through flooded districts in Kentucky where only house tops were visible above water.

Remains Taken To Hillsboro

The remains of Mrs. Mathilda Miller were taken to her former home below Hillsboro for burial Monday morning on the 8:25 B. & O. They were accompanied by Mrs. Miller's four children, Mrs. Chas. Wolfe and Miss Grace Miller, of this city. Mr. Newton Miller, of Virginia and Mr. Ed Miller and wife, of Cincinnati. Relatives were to meet them in Hillsboro.

Rev. Locke came down from Columbus to conduct the funeral services, held at the residence Sunday afternoon. The home was crowded with friends and the services most affecting. Mrs. Arthur Miller, Miss Fults and Mr. Fred M. Mark sang the hymns.

There were beautiful flowers, including a large basket from the Jess W. Smith store, and special designs from Mr. Smith and Miss Miller's Sunday school classes of Grace M. E. church and the Wesley chapel.

Rev. Locke's Impressions Of Sunday

Rev. T. W. Locke, former pastor of Grace M. E. church who was down from Columbus to conduct the funeral services of Mrs. Miller, made a little talk on his personal acquaintance with the Rev. Billy Sunday at the Grace church service Sunday morning.

Rev. Locke said that formerly he had not favored Mr. Sunday's methods but since he had met him and come under the influence of his work, he felt that he was a man commissioned of God to do a great work needed at the present day.

Although the Columbus preachers are not holding church services, the Rev. Mr. Sunday is keeping them very busy. In walking across Goodale park with Mr. Sunday a few days ago the evangelist made the remark that there were three things which never changed, "God, heaven and hell," and upon this fact he bases his preaching.

A 60,000 RUBLE REAPING JOB.

Russian Girls' School Built by Work In a Field of Oats.

M. Maxim Kolibaba, a provincial commissary of the Russian province of the Tauride, had for years attempted to found a girls' intermediate school at Kamrat, but the 60,000 rubles necessary for the building and foundation were not forthcoming. He complained of this to M. Tsanko, a local millionaire, who retorted that he did not believe in education, as what Russia wanted was good agricultural laborers, and sneered at M. Kolibaba as a type of educated good for nothing.

M. Kolibaba retorted that, despite his education, he could reap his own twenty-three acres of oats with a hand sickle and without help, and he undertook to do this in twenty-eight days. The incredulous millionaire declared that if this were done he would subscribe the whole 60,000 rubles needed for the school.

M. Kolibaba thereupon set to work and, despite a temperature of forty degrees Reaumur, reaped the whole twenty-three acres before the term expired. The millionaire fulfilled the terms of the bet, and paid over the 60,000 rubles for building the school.

M. Kolibaba, who lost fourteen pounds during the operation, was barred by other localities which want schools and expected the commissary to get money for them by further reaping exploits.—Rosary Magazine.

Peacock 110 Years Old.

Thomas Lambert, a farmer of Sulphur Well, Metcalfe county, is believed to be the owner of the oldest peafowl in the world. The bird apparently is just as active as ever. He has roosted in trees 110 years.

In 1810 Horatio Thompson came to Kentucky from Virginia, bringing with him this peafowl. The bird was then between 10 and 15 years old. When Mr. Thompson died this gay knight of fowldom passed to Thomas Lambert.

For seventy-five years this peafowl roosted on the same limb of a large oak tree until the tree was cut down. This bird is known over all of southern Kentucky, and Peafowl School in Metcalfe county, was named in his honor.—St. Louis Globe-Democrat.

Killed Swordfish With Rifle.

When Capt. Enos Nickerson of the fishing schooner Pontiac arrived at T wharf he proudly exhibited a 450 pound swordfish which was pierced behind the left gill with a rifle bullet.

Capt. Nickerson was fishing in the Channel and upon seeing a good sized swordfish he determined to substitute the rifle for a lily iron. One bullet performed the deed and the prized fish rolled over with a great flapping of its tail and was easily hauled on deck. This is the first time that a swordfish has been known to have been caught in this manner.—Boston Transcript.

MONT PHILLIPS DRAWS FOUR YEARS IN THE PEN

Mont Phillips, colored, under indictment for shooting to kill and also for shooting to wound, was arraigned before Judge Carpenter Monday morning, and entered a plea of guilty to the charge of shooting to wound.

Upon his plea of guilty Judge Carpenter sentenced Phillips to serve four years in the Ohio penitentiary at hard labor.

When asked if he had anything to say, Phillips stated that he had always been a hard working man, and with the exception of his trouble with Josie Hargrave upon two occasions, he had been a law abiding citizen.

Phillips is the man, who, while under the influence of liquor on the 13th of last October, went to the home of Josie Hargrave, colored, on

Yeoman street and shot her some five times with a revolver.

While all of the balls inflicted serious injury, the woman lingered for a time between life and death, and eventually recovered.

Phillips will be taken to the penitentiary Tuesday by Sheriff Nelson.

Auto Funeral Train.

The automobile hearse which has been predicted has arrived, and is found to be extremely satisfactory. The exhaust from the engines is muffled so as to make the action of the machinery noiseless, and the silent movement of the vehicle is said to be in no way displeasing. The next advance will doubtless be a train of automobiles for the accommodation of a who accompany the hearse to the cemetery, the vehicles being covered and painted in some subdued color.—Popular Mechanica.

BREAD.

The value of different kinds of bread has been discussed for many years and from various points of view since the days of Sylvester Graham. This temperance reformer of the early part of the nineteenth century based his cure for alcoholism on certain radical changes in diet laying special stress on abstinence from meats, and the use of bread made from unbolthead wheat meal. Hence the names "graham flour" and "graham bread".

Wheat deserves the wide-spread consideration which has been given it, because of its superior value as a food. It easily ranks first among the food products at our disposal, although rice probably forms the staple food for a larger proportion of the human race. The wheat kernel is made up of a number of parts which experience different treatment in the various milling processes in the preparation of flour.

When the grain is crushed the meal contains coarse particles of bran, the outer coverings of the seed. Bread made from such wheat meal will contain all of the nutrients of the original wheat; but the bread will be coarse in texture, dark in color, and rather strong in flavor. Graham flour or wheat meal is usually made from soft winter wheats. Sifting wheat meal to remove the coarser particles was the first step toward the making of white flour, the use of which has rapidly increased with the progress of the years. The advent of the later roller-process methods of milling has continued the essential feature of the earlier schemes in separating the bran from the interior of the grain; but it has materially improved the bread flours in common use until the standard flours from hard wheat carry more protein than almost any graham flour in the market thirty years ago, and as much as many now offered for sale. Newer methods of agriculture have assisted in increasing the gluten content of wheat flour through the altered composition of the newer varieties of the cereal.

The most reliable experiments made from the different types of flour show that standard patent process flour contains more available nutrition and energy than either graham or whole wheat flour. These facts have lately been supplemented by English statistics. They show that with respect to the availability of their total energy the breads differ little; with regard to the protein there is a slight advantage on the side of the white bread. So far as digestibility is concerned, there is no justification for extreme statements as to the advantages or disadvantages possessed by different kinds of bread of the commoner types. The gratifying fact is that flour of all kinds is an economical food even at the present prices.

Country Church Our Most Important Institution

It Is Failing And Needs Strengthening

By President KENYON L. BUTTERFIELD of the Massachusetts Agricultural College

THE country church I consider in most respects the MOST IMPORTANT INSTITUTION

IN THESE UNITED STATES. And I say this although I realize that the same indifference toward church life and churchgoing which has swept through our cities has also affected our country churches.

The point is, however, that we CANNOT AFFORD TO HAVE A PROSPEROUS AGRICULTURAL LIFE THAT IS PURELY MATERIALISTIC. The church is the one great institution concerned with the higher human instincts.

THE CHURCH HAS BEEN WEAKENED BY SEVERAL CAUSES. FOR ONE THING, THERE ARE TOO MANY CHURCHES, AND AS A RESULT DENOMINATIONAL JEALOUSIES ARE STRONG. THE CHURCHES ARE POOR AND THE MINISTERS ARE POORLY PAID. THIS IS NOT TRUE IN ALL PARTS OF THE COUNTRY, HOWEVER, AND THERE ARE SPLENDID EXCEPTIONS—STRONG, FINE COUNTRY CHURCHES WITH ACTIVE PASTORS.

As a matter of fact, I suppose we could have better agriculture without the country church. That is, the church is not educational, and if it comes to pure agriculture we could teach the farmers how to take care of their farms without bothering with the church part at all.

But I believe that the CHURCH IS ABSOLUTELY NECESSARY for bringing the country community to its highest level of individual and community life. No other agent can take its place, because the religious instinct is fundamental. Sooner or later any civilization that survives MUST BE DOMINATED BY RELIGIOUS INFLUENCES.

Poetry For Today

A GOOD CREATURE OF GOD.

Along the slope with sunshine warm,
Where fragrant ferns soft shadows make,
How swiftly glides your graceful form,
Blithe little snake,
Where leads your path I cannot guess,
As through the thorns you swiftly go.

If serpent's wisdom you possess,
I do not know.
To me you seem no noisome thing
As on the mossy bank you lie,
You love the sweet returning spring
As well as I.

You bring to me sweet memories
Of long, bright, sunny summer days,
Of grassy fields, and June-bright skies,
So go your ways.

When autumn winds sweep down the slope,
And winter storms are on the wing,
You fall asleep in certain hope
To wake with spring.

So peace be with you, little snake,
Gliding along the flower-strewn sod,
The gifts of life and death we take
From the same God.

MOTHERS OF PUNY CHILDREN.

May Find Help In This Letter.

"My little daughter ever since her birth had been frail and sickly, and was a constant source of worry. Several months ago I secured a bottle of Vinol and commenced to give it to her. I soon noticed an improvement in her health and appearance. I gave her in all three bottles, and from the good it has done her I can truly say it will do all you claim." J. Edmund Miller, New Haven, Conn.

The reason Vinol builds up weak, ailing children so quickly is because it contains in a delicious combination the two most world-famed tonics—i. e., the strength creating, body building elements of cod liver oil, with all the useless grease eliminated, and tonic iron for the blood added. If you have a weak, puny, ailing child. Try Vinol on our offer to return your money if it fails to benefit your little one. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

KIRKBY GIVES BOND

Former State Railroad Commissioner Under Indictment.

Columbus, O., Jan. 13.—William Kirkby, state railroad commissioner during the administration of William McKinley as governor of Ohio, voluntarily surrendered himself to Franklin county authorities under three indictments, charging him with bribing Dr. George B. Nye of Pike county, while the latter was a member of the state house of representatives.

The former state official was released under \$10,000 bond. The indictment of Kirkby was the result of the confession of Nye.

The three indictments against Kirkby are practically the same with the exception of the dates. One charges that in March, the exact date unknown, 1908, Kirkby as the agent of the Ohio Traction Railway company made an offer to Dr. Nye, in consideration of the latter's support in certain legislative matters, to use his influence to secure the sale of railroad ties by Dr. Nye to the traction company. Another charges the same thing with reference to an uncertain date of March of 1910, and the third, an uncertain date of March, 1911.

DRIVEN FROM HOME BY SWOLLEN OHIO

Flood Conditions at Cincinnati and Other Points.

Cincinnati, O., Jan. 13.—The Ohio river passed the 60-foot stage here and continues to rise steadily. In the lower parts of the city and in Dayton, Newport and Covington, suburbs across the river in Kentucky, 2,500 people have been made temporarily homeless by the invading waters. In the Kentucky towns, schoolhouses and churches have been thrown open and are filled with refugees. The property loss will reach into the thousands.

Cincinnati commission merchants and warehouse owners whose places of business are along the river front have suffered heavy loss. Hundreds of cellars have been flooded, and in some buildings facing the wharves the water is up to the second story. The Panhandle and the Louisville & Nashville railroad freight houses are half-buried in water, and all trains running into the Grand Central station and being re-routed into the city.

At Portsmouth it is estimated that several hundred families have been driven from their homes by the flood. The poorer class found refuge in the public school buildings.

Near Gallipolis county bridges have been washed away and farmers in the lowlands have suffered heavy losses. Evansville, Ind., reports the flood there exceeds the 1907 mark of 45 feet.

CUT THE HIGH COST OF LIVING.

W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctor's medicines did them no good. I got a bottle of Foley's Honey and Tar Compound, and before it was all used the children were free and cured of their cough. I saved a doctor's bill for one 25c bottle of Foley's Honey and Tar Compound." A mean stuffy cold, with hoarse wheezy breathing is just the kind that runs into bronchitis or pneumonia. Don't trifle with such serious conditions but take Foley's Honey and Tar Compound promptly. Contains no opiates. Blackmer & Tanquary. Adv.

Plan To Fortify Panama Region

GREAT NAVAL BASE

Navy Wants Funds For the Development of Guantanamo Bay.

Washington, Jan. 13.—Relying upon the nearness of the completion of the Panama canal to awaken congress to the necessity for appropriations, the navy department hopes to get this year sufficient funds to execute plans for the development of Guantanamo bay, Cuba, as a great naval base. Secretary Meyer, who is now taking up this matter with the naval committee of the house, has already told the members that the completion of the canal will make the development of Guantanamo bay imperative for the defense of Panama and dominance of the Caribbean and the Gulf of Mexico by the United States. The fortification of Guantanamo bay will follow close upon its development as a naval base.

PRESIDENT-ELECT IN PLAIN WORDS TO CHICAGO MEN

WILSON TALKS OF HIS SPEECH

Makes Light of the Fact That He Used Some Plain Words.

ADVICE JARRED HIS HEARERS

President-Elect Says He Believes If the Members of the Chicago Commercial Club Had Been Surprised at All, It Was Because He Pointed Out Their Responsibilities Rather Than the Duties of the Government.

Crestline, O., Jan. 13.—President-elect Wilson attached little significance to the fact that he had spoken very plainly to the business men of Chicago and the middle west when it was suggested to him that his hosts probably got more than they bargained for when they invited him to discuss frankly the relations of business and the government and his attitude toward both. He thought that if his hearers had been surprised at all, it was because he pointed out their responsibilities rather than the duties of the government.

When the governor declared at Chicago that he had come to ask for counsel and assistance, there was hearty applause, and it increased with the assertion that things done under the whip of the law are done imperfectly, reluctantly and never successfully. There were fewer smiles when he touched the subject of discriminating rates and closed credits, and as he drove home the thought that there must be freedom from every feature of monopoly the handclapping died away completely. So the temper of his audience varied as he soothed their fears or aroused their misgivings.

"Governor," said a man as the banqueters were leaving the hotel, "you may have to use that whip of yours before some of these gentlemen are subdued and brought around to your way of thinking."

"Well, I carry the whip right here," replied the governor, as he laughed and slapped his hip pocket. "It's all ready for use."

As the governor sat swapping stories with the newspaper men on the train, some one suggested that perhaps the Commercial club didn't like what he said and may have expected something different now that he has been elected.

"Well, I don't know," he answered. "I had spoken at the Commercial club four or five times before, and I know the crowd pretty well. And they must have known what kind of a speech I was going to make. I think possibly the only thing that took them by surprise was that I talked not as much about what the government was going to do as about what they themselves ought to do."

In his speech at Chicago, Governor Wilson declared that success of enterprise depended upon the opening up to the rank and file of the nation not only its physical resources but the business credit as well.

Men had testified under oath, he said, to the existence of an "inner circle," by which credit was obtainable to the exclusion of those against whom that inner circle sought to discriminate.

"I am not drawing an indictment against the banking system," he said. "That already has been convicted. But I do refer to the basis of credit in business. The business future of this country does not depend on the government of the United States; it is dependent on the business men."

ESCAPED AFTER FIFTEEN YEARS

W. P. Broyles made a successful escape after fifteen years of suffering from kidney and bladder troubles. Foley Kidney Pills released him and will do just the same for others. FARMERS' PROPERTY INSURANCE

A Question of Vital Importance.

We have been fortunate in securing the agency of one of the best insurance companies writing farm property.

The CONNECTICUT FIRE INSURANCE COMPANY of Hartford, with assets of over \$5,000,000, issues to the farmer a liberal contract for fire and tornado insurance and are fair and just in their settlement of losses.

"Protection in the old reliable Connecticut costs no more than questionable insurance in doubtful companies."

If you are looking for insurance on farm property kindly call at our office in the Judy block or use the telephone and we will be glad to show you our contract with rates, terms, etc.

Removal Sale of Monuments

As I am forced to vacate my present quarters by Feb. 15th, I will offer for sale until that time the largest stock of Granite and Marble Monuments, Markers, Etc., ever carried in stock in this city.

My prices on work which will be sold include all lettering, setting, etc., complete in cemetery, and will be erected as soon as the weather will permit.

The work which I have been turning out is superior to all others, as all work gets the same attention and must be first class before it leaves the shop. My pneumatic plant is known to be the best manufactured, and is the only pneumatic air plant in the city. All cutting, carving, lettering, etc., is done here just the same as it is done at the quarries, and with the same kind of tools.

FOUR CARS DITCHED TWO TRAINS ANNULLED

D. T. & I. Has More Trouble When Freight Leaves Track Near Greenfield--No Mail on Road From Saturday Morning Until Monday Morning.

Still another wreck occurred on the D. T. & I. railroad, when four freight cars left the rails at Greenfield about 3:40 Saturday afternoon, and no trains could pass over the spot until at a late hour Saturday morning.

It is said the wreck was due to a defective switch, and that the engine passed safely over, but the four cars immediately following endeavored to take the switch, but instead of taking the switch, took the ditch, tearing up considerable track while doing so.

Application was made for assistance from the B. & O. railroad, and a wreck train was on the spot within a few hours, but it was not until Sunday morning about ten o'clock that the train due here at 2:50 Saturday afternoon reached this city.

As the south-bound train was also annulled Saturday night, only two trains ran over the road Saturday.

From Saturday morning until Monday morning, no mail was sent over the road other than newspapers, and for some 45 hours Jeffersonville was cut off without mail.

The heavy rains did much damage to the road on the southern division, so far as known no track was washed out between this city and Jackson.

Monday morning the general condition of the road was better than for two weeks.

In addition to the other troubles of the D. T. & I. ten "bad order" cars in a string of about 1000 set off at Springfield, burned up Sunday.

It is supposed that some one set fire to the cars, as the department was called to the scene upon three different occasions.

FIND POTFUL OF OLD COINS.

Roman Workmen Make Valuable Discovery Near Circus Maximus.

Rome.—More ancient discoveries are reported. Two laborers while engaged in the work of demolishing the foundations of a medieval wall near the Circus Maximus with the object of widening the road discovered an earthenware urn which was filled with gold coins. The laborers divided the coins secretly among themselves and sold them for several dollars apiece. The news of the find leaked out, and the police arrested the men and sequestered the coins, fourteen of which were recovered. Four of the coins had been sold to a garbage man, who had resold them to a dealer at \$20 apiece.

The coins are now in the Natural History museum. All of them are very rare and very valuable. They date back to the fifteenth century and are the best specimens of the papal mints in the republic of Florence and the grand dukes in the kingdom of Hungary.

The wall where the discovery was made evidently belonged to a convent. The exploration of the place is being carried on.

When You Think Of Drugs THINK OF US

News Is Hopeful Over Baker Line

Speaking of the extension of the Springfield & Washington traction line to this city, the Springfield News recently said:

"Through the efforts of E. S. Kelly, the Springfield and Washington Traction Company has now secured the full \$100,000 guarantee for its bond issue. Stacey B. Rankin, who has the project in charge, hopes to be able within the next few weeks to get the other \$100,000 subscribed by the banks at Washington C. H., and other towns and from people along the proposed extension.

When the matter was placed before Mr. Kelly recently he said he would guarantee the difference on the first \$100,000. With the amount pledged by the local banks and the Merchants' association the full sum is now raised and as a result those interested in having the line extended are greatly encouraged. Mr. Kelly guarantees about \$15,000.

It is expected that everything will be in shape so that President George W. Baker can begin the construction of the extension to Washington in the early spring.

Brings Suit On Promissory Note

The Robinson & Company, of Richmond, Ind., through Attorneys Post & Reid, has instituted proceedings in Common Pleas court for judgment in the sum of \$176.70 against Wilber Thornton, that amount alleged to be due on a promissory note.

A lien was given by the defendant, on certain property, and under its provisions the property is to be sold and the amount deducted, providing settlement was not made by January 1, 1913. No payment having been made, the Robinson company desires that judgment be awarded as provided for in the lien.

YOUNG LONDON BACHELORS STRIKE

They Band Together and Black-ball Expensive Hostesses.

London.—It is asserted that an absolutely unique strike has been begun in this city. It is nothing less than a strike on the part of eligible young men of the west end.

It is aimed at those wealthy hostesses of Belgravia and Mayfair who for some time past have by their thorough want of all consideration—to put it politely—made the lives of their young bachelor guests a burden to them. The chief grievances are the growing and excessive cost of being asked out and the mauling of youthful bachelors for various uninteresting funds.

The strike started at a club. Two young men were recounting to each other their experiences of the previous night. Both had suffered at the hands of their hostesses. They were so much struck with each other's plight that the idea of joining forces and of banding other young bachelors together in self defense came naturally. The idea was taken up with enthusiasm, and every day new members are obtained.

The determined eligibles have drawn up a list of houses and hostesses who are to be avoided. Not a single member of the league will ever accept an invitation to one of these addresses. "We have banded ourselves together," said one member of the league, "for the defense of all young bachelors who are in the habit of being invited out fairly extensively. For some time hostesses have been getting more and more inconsiderate. The wealthy ones are by far the worst. Frankly they don't play the game."

Prince George May Visit Us.
London.—The cruise upon which Prince George, the king's second son, will set out on Jan. 18 on board the cruiser Cumberland may take him to American ports. He will then have completed four years of training in the naval colleges at Dartmouth and Osborne.

Chileans to Attend U. S. Army School.
Santiago, Chile.—The government has decided to send at least two officers of the Chilean army to the Coast Artillery school in the United States.

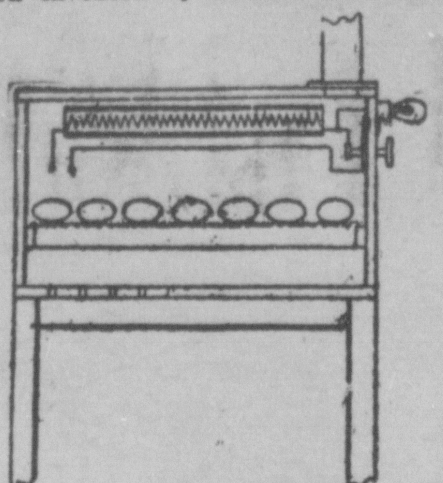

A Kentucky Problem.
It is a question with some which is the cheaper and safer, a mule or an automobile. The mule must have corn, hay, oats or grass. He may in the meantime get to buck jumping and land you in the middle of a mud hole or on top of a pile of rocks. The automobile eats nothing but gasoline and when at rest is as harmless as a cat. But when it gets to running it goes at it blind and is liable to want to climb a telephone pole or jump off the bridge. Mules and automobiles are really both dangerous. Therefore we walk—Madisonville Hustler.

Agricultural

INCUBATOR ATTACHMENT.

Light Shows Whether Temperature Needs to Be Regulated.

A time-saving attachment for incubators that should increase the efficiency of these mechanical hens has been invented by a Louisiana man.

Thermostat Operates Light.

Chickens cannot be raised without a great deal of attention, and the poultry raiser who uses incubators usually puts in a good part of his time going around among them to see if the temperatures are right. If there are many of these machines and he has to consult the thermometer in each one it takes time. The attachment here consists of an electric light on the outside of the incubator and operated by a thermostat. The light can be regulated either to burn weakly when the temperature in the box is too low or to go out altogether, or to burn only when the incubator requires attention. Whichever way it is, the owner can tell at a glance around his group of hatching machines whether any need his services and, if so, which it is.

Course for Farmerette.

One of the new courses of study offered by the Missouri College of Agriculture is a four years' course for women, leading to the degree of Bachelor of Science in Agriculture. This course is intended to give to women not only a knowledge of home economics, but a thorough training in those farm practices in which women are particularly interested. The course includes farm crops, and soils, dairying, botany, gardening, care of flowering plants and fruit culture, besides the usual studies that have heretofore been included in the regular home economics course. It is expected that this course will prove popular with a large class of young women who intend to spend their lives on farms or in teaching in connection with agricultural schools. It is a well-balanced course, affording a wide range of studies from which students may elect work outside of the agricultural and home economics departments.

Statistics of Farms.

Including the item of rent, the cost of raising wheat in the year 1909 was estimated by the Department of Agriculture at 66 cents a bushel; the cost of raising corn was 38 cents a bushel, and the cost of raising oats was 31 cents a bushel. These figures are probably a reasonable statement of fact where the three grains are successfully grown. The average wheat fields were 59 acres; corn fields, 30 acres, and average oat fields, 25 acres. The wheat cost the farmer to raise it \$11.15 per acre; the corn \$12.17 per acre, and the oats \$10.91 per acre. On the selling basis of 95 cents a bushel on farms, the wheat showed a profit of \$5.33 per acre; on the selling basis of 62 cents a bushel on farms, the corn showed a profit of \$7.82 per acre; on the basis of 40 cents a bushel at the farm, the oats showed a profit of \$4.17 per acre. There are the figures of 1909. To-day there is considerable decrease in price of grain and farmers are not making any such profits.

German Sausage.

Sausage in Germany is made of chopped meat and fat, liver, lung, heart, brain and rind of bacon, often with the addition of spices, salt, saltpeter, grist, bread crumbs, rice, raisins and other substances, filled in intestines, stomachs and bladders. Most sausage is made of pork, although beef, horse and mule meat, mutton, goose and game liver, and sometimes even fowls, fish and crabs are used.

Clover for Hogs.

Experiments at one of the State stations showed that red clover ranked among the first as a hog forage, because of the palatableness of the feed throughout the season, and also because of its adaptability to rotations. The average amount of pork produced per acre was 572.2 pounds. Corn fed to 6-cent hogs on clover was worth 58 cents per bushel.

Care of a Foal.

Teach the foal to eat early in life. Bran and whole oats are good, one to four of oats or thereabouts. Give all it will eat, including some hay. Wean only when it is eating well. The first winter let it run loose, if possible, in a box. If this is not possible, then turn out every day.

Poor Opinion of Countrymen.

One of the great intellects of England has stated that not above 50,000 people in all Britain can read and understand the ordinary London newspaper.

HAS 12 REASONS NOW.

Candidate's Plea for Election as Secretary of State Successful.

Jefferson City, Mo.—Twin daughters were born recently to Mrs. Cornelius Roach, wife of the Secretary of State. Mr. Roach is now the father of twelve children, eight of whom are girls.

In the campaign of 1908 Mr. Roach circulated blotters as campaign literature on one side of which was a picture of his nine children in a row, arranged according to age, and under the picture these words in black letters: "Nine reasons why Cornelius Roach should be Secretary of State." Now the number of reasons has increased to twelve.

THERE ARE VARIETIES.

"Telephone nerve" is a new complaint. Those who run in to a neighbor's to call up somebody without expense are the real cases, though the doctors don't include them.

DANCERS ARE MOON-MAD.

New Ballroom Whirl Becoming a Connecticut Craze.

South Norwalk, Conn. — Young folks in this section are infatuated with a "moondance" invented by Porter Morgan and Jay Buckley, amateur electricians. A big transparent disk is suspended above the centre of the ballroom floor, all other lights are put out and Luna is made to blink, fade and revive amid weird noises.

The orchestra plays "Moonlight," "Moonbeams," "By the Light of the Silvery Moon" and others and the dancers hum the tunes.

Sizing Him Up.

THREE MORE APPEAR AND ENTER PLEAS

Roy Lloyd, the Jeffersonville man who is under indictment carrying two counts, one for shooting to kill and the other for shooting to wound his brother, Henry Lloyd, was arraigned Monday just before noon, and entered a plea of guilty to the charges in the indictment.

Lloyd is the man, who, on Christ-
mas day shot and seriously wounded
his brother during a scrimmage at
their home in Jeffersonville. His
victim is well on the road to recover,
however, notwithstanding that one
of the balls penetrated his side.

Lloyd's bond was fixed at \$500,
and failing to give this, he was re-
manded back to the county jail to
await trial.

Lost Ring Returned After 26 Years.
Mrs. George Wrigley recovered in
a mysterious manner her wedding
ring which had been lost for twenty-
six years.

While en route on a train from her
home in New Brunswick, a young
bride with her husband, her wedding
ring mysteriously disappeared.

A letter was handed to Mrs. Wrig-
ley at her home by a strange youth.
After delivering the missive the boy
drove away before he could be ques-
tioned. The ring was accompanied in
the envelope by an undated and un-
signed note stating that the writer
expected soon to die and wished
the ring to be returned to its right-
ful owner.—San Francisco Call.

She Suddenly Disappeared.
Mary Andre was a palmist in
Trieste, Austria. When she examined
the hands of well-to-do women she
generally predicted some impending
misfortune, and explained that this
was very likely due to their posses-
sing some unlucky jewel. A number
of her clients trusted her with their
jewelry in order that she might dis-
cover which was the offending stone.
Frau Andre must have had a large
clientele for she suddenly disappeared
from Trieste with \$25,000 worth of
jewels and has not been heard of
since.

One by One.
The movement carried on by the
"One by One" Working Band, started
by Mr. Thomas Hogben in England,
in 1888, has spread into the colonies,
the European countries, and even to
Russia and Japan, and now numbers
nearly ten thousand members. More
than twenty thousand cases of con-
version have been reported in the
"praise notes" since the beginning.
It is perfectly adapted to any place
or person.

Rescued a Rubens.
The cure of Austruvel, a small
place near Antwerp, in turning out a
tumblerroom came upon a large can-
vas, about five feet by four feet.
Having passed a sponge over the
picture, the cure, struck by its
beauty, transferred it to his sitting-
room, where it was soon declared by
experts to be a genuine work by
Rubens. The subject is the Assump-
tion of the Virgin.

Mormons in England.
There are 325 Mormon missionaries
at work in England trying to gain
converts to the Mormon faith. In
Scotland and the North of England
there are said to be 100 meeting
places. The Mormons are charged
with encouraging young women to
emigrate to Utah and are held to be
guilty of violating the United States
immigration laws by assisting them
with money to pay their fares.

Hog Thief In Workhouse

Moses Jones, colored, residing in
Greene county, was fined \$50 and
costs and given 30 days in the Xenia
workhouse for stealing a hog, and for
borrowing the owner's horse and
buggy with which to haul the animal
home.

When the irate farmer discovered
his loss he tracked the buggy to the
fellow's home, and there found his
missing porker. Jones' arrest follow-
ed and the above fine assessed against
him.

New Justice Out in Jasper

C. P. Luttrell, of Octa, has resign-
ed the office of Justice of the Peace
of Jasper township, and his place has
been filled by the appointment of
John D. McMahon, former constable
of Jasper township. The trustees of
Jasper township made the appoint-
ment.

Granted Divorce In Pickaway County

Mrs. Oma McCrea, who a few
weeks ago brought action in the Pro-
bate court of Pickaway county for
divorce from her husband, Charles
McCrea, was awarded a divorce Sat-
urday.

The couple live at New Holland,
and the plaintiff in her petition ac-
cused the defendant of neglect and
cruelty. F. A. Chaffin of this city,
represented the plaintiff.

BICOLORED HATS FOR MEN.

**New Style in Paris Has Some Startling
Variations.**

Paris.—Checked or particolored
hats for men are the latest innovation
in boulevard fashions. "Chapeaux bi-
colores," as they are called, have brims
and crowns of totally different shades,
gray and black, green and gray, black
and blue, gray and white begin the
combinations most in favor. Other
hats are covered with a large chess-
board pattern, which these colors al-
ternate.

Some Frenchmen are already wear-
ing them, and the manufacturers say
that as soon as the fashion has de-
finitely taken root they will introduce
far bolder types with four or five bril-
liant colors, arranged in squares or
rings.

Americans here have thus far fought
shy of these hats, although it is thought
probable that the style will not take
long to cross the Atlantic.

GIVES PARK FOR TREE STUDY.

**New Yorker Presents Summer Home
to State College.**

Syracuse, N. Y.—John R. Strong of
New York city has given 100 acres of
forest and his valuable summer home
in the Catskills, to be used as a forest
experiment station by the New York
state college of forestry, Syracuse uni-
versity. The property adjoins Elks
Park, near Tannersville, and is cov-
ered with hard woods, with considerable
hemlock and spruce.

The college will begin the develop-
ment of the property at once. The
land will be used part of each year for
educational purposes. The sophomore
class will camp there eight weeks ev-
ery summer, carrying on practical
work in forestry.

The editor has not asked me to
give any of my wisdom on the subject
of poultry, but I will send in this sug-
gestion anyway: I know from what I
have been on some farms that the
hens made a great deal more money—
investment, work and cost considered
—than any other one branch of farm-
ing. Most farmers consider the care
of poultry "woman's work," and some
of them are actually ashamed to be
seen helping their wives look after
the fowls. What a mistake! It is not
as much a woman's work as a man's,
because it often involves exposure
during storms and cold weather and
the man who will refuse to save his
wife from any bit of hard work possi-
ble is a pretty poor specimen of a
farmer. If these men would study the
science of poultry raising and give it
as much attention as any other branch
of farming they would make more
money and make it easier. The Amer-
ican hen has made her place in agri-
culture by producing millions of dol-
lars every year and she has earned
the respect of every right-thinking
farmer in the land.—Samuel Phillips.

Many Violent Deaths.

Figures show that as many deaths
occur in twelve months as occurred in
the four years of the Civil War. There
were 107,680 accidental and violent
deaths in the United States during
the year of 1907, which is an increase
of \$50,000 in seven years. The popula-
tion in that time increased 12 per cent,
and the number of violent deaths 87
per cent. It is claimed that most of
the deaths are avoidable. If the 100,
000 deaths of a year were considered a
great calamity, and any one of a num-
ber of cities could be robbed of its
inhabitants.

SEA FRUIT.

**Name of Delicious Little Shellfish of
the Mediterranean.**

Fruits de mer (sea fruit), this
is the comprehensive name by which
the numerous little shellfish of the
Mediterranean are known; the term,
affectionate if you will, which the
French use in speaking of these con-
tributions of the sea which at their
best in Marseilles and all along the
Riviera, over the border into sunny
Italy.

Marseilles is the great fish market
of southern France and Leghorn of
northern Italy, while Naples of
course is the centre for southern
Italy. Along the quays of all three
cities an epicure on his rambles will
find much of interest and many a new
sensation for his palate.

Bouillabaisse, even before it was
made famous in literature by Thack-
eray, was considered the piece de
resistance of southern France and
matelote de poisson a close second.
But for my part the most luscious
morsels of the fruits of the blue-Med-
iterranean are the little shellfish
which are sold from booths along
the quays or in the open air kitchens
where amid odors of garlic and oil,
a whiff of the salt air from the sea
and of great masses of wet seaweed
upon which the shellfish are tempt-
ingly arranged make the nostrils
dilate even as the sight of the se-
ductive wares tickle the palate and
force one to stop and investigate.—
Epicure.

Bird Steals Fishermen's Catch.

A party of ice fishermen here had
an unusual experience with a fish
hawk. They had caught several pic-
kerel which were laid out on the ice.

One of the party noticed the great
bird circling overhead, and suddenly
it swooped down upon the pile of
fish. The bird devoured half a pic-
kerel in a flash and was eating raven-
ously at the rest of it when the fisher-
men rushed to save their catch.
The bird was shoed into the air,
only to come down again and take
another fish and make way with it.
It is the first instance reported in
years where the fishermen had to
combat with birds in saving their
catch.—Boston Globe.

Newspapers as Substitutes.

Several headmasters of schools in
the Rotherham (Yorks) district have
adopted newspapers instead of read-
ing books. "The scholars," they say,
"gain more general knowledge from
the newspapers than from the
books."

Sea Snakes Plentiful.

Sea snakes are plentiful in the
south Pacific. They are widely dis-
tributed, stray individuals having
been secured on the coast of New
Zealand. When swimming close to
the surface they exactly resemble an
ordinary snake, except that the head
is always below the water. At night
they come ashore and lie among the
rocks. They feed on fish and al-
though their small double fangs ap-
pear harmless, they are reported to
be venomous.

A reception by the governor for the judiciary, members of the general assembly and military officers is set for 7 p. m.

Everything is in readiness for the inaugural ball, which will begin at 9 o'clock tonight at Memorial hall. A luncheon will be served in the hall at 11 p. m. It is expected the dancing will continue until 2 or 3 a. m.

Cox to Democrats.

Governor Cox, speaking at the annual Jackson day banquet at the Franklin County Democratic club said: "I will give the state of Ohio as good an administration as can be made by the conscience which God has implanted in me. I should be unworthy of the high office did I not exact from every appointee the highest qualifications of efficiency and integrity. While party lines do not necessarily mark lines of efficiency, I will let it be known that I want to have on guard the men who will understand and respect the responsibility of the party in power."

A firm pledge to enact into law first of all the promises of the Democratic platform was made. "I here and now serve notice on the whole state to keep off the track until that platform shall be enacted into law," declared the new governor with marked emphasis.

Inaugurating Lasting Fight Against Union

(Continued from Page One.)

"My principal business in coming here," said Mr. Gompers, "is to try and adjust the quarrel that has arisen between two elements in the White Rats actors' union. I am making good progress in that direction. I am also going to Albany on the invitation of Governor Sulzer, as a member of the factory investigation commission, to confer with the governor and Senator Wagner, Speaker Smith of the assembly and other members of the commission, in regard to labor legislation, especially as regards the abolition of child labor."

Mrs. Rose Pastor Stokes addressed a mass meeting of the striking vest makers in Clinton hall. She declared the strikers had only to stick together to win and gain all their demands. She further declared the workers would never get all they were entitled to except through political action.

BAD BREATH.

It's Your Duty to Get at the Cause and Remove It. A Word to the Wise, You Know.

Dr. Edwards' Olive Tablets, the substitute for calomel, all the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant sugar-coated tablets are taken for bad breath by all who know them.

Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system of impurities.

They do all that dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Olive Tablets without griping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Olive Tablets are a purely vegetable compound mixed with olive oil. Take one every night for a week and note the effect.

"Every little Olive Tablet has a movement all its own." 10c and 25c per box.
